Help End Marijuana Prohibition HEMP Party

Cannabis is a herb

Every part of the plant is used - root, leaves, and flowers for medicine; stems for textiles, rope, and paper; seeds for food and oil. Hemp is a valuable resource for methanol and bio-diesel. Hemp seed typically contains over 30% oil and about 25% protein, with dietary fibre, vitamins and minerals.

Studies of cannabinoid biology have lead to many discoveries in neuroscience and immunology. The endocannabinoid system, operates in the regulation of brain function and immune system.

Cannabis as commodity will have far reaching consequences on legislation and the value of other commodities including crude oil, coal, cotton, beef & dairy, soy bean, wood-pulp, building materials, pharmaceuticals, alcohol, tobacco and etc. Cannabis has huge potential.

HEMP Party Policies

Re-legalise and regulate Cannabis for personal, medical and industrial use.

Allow for health education, home growing, and regulated sales through registered outlets which will separate Cannabis from the criminality of the black-market and end consequent associated corruption.

Allow medical use, utilising Cannabis' painkilling, relaxing, anti nausea and healing properties.

Establish a commercial hemp industry producing fuel, fibre, paper, textiles, food, oil and other environmentally sound products.

Release all those imprisoned for Cannabis alone and the removal of all records of previous criminal Cannabis convictions.

FOOD = Better protein than beef from hemp seed edestine and albumin plus Omega-3, 6 & 9 Essential Fatty Acids.

FUEL = Cleaner energy than crude oil from a renewable resource and Carbon sink.

FIBRE = Stronger textile than cotton, more productive than trees and biodegradable.

MEDICINE = Safer effect than pharmaceuticals and less toxic as a prevention & cure for illness & disease.

COSMETICS = Facial creams, body lotions, soaps, lip balm, shampoo and conditioner, massage oil with hemp seed oil are just some of many products.

RECREATION = Healthier choice than alcohol and can help overcome alcohol or drug dependency. Cannabis therapy reduces stress and relieves tension.

Join + Network + Donate

Join the HEMP Party online, it's free and easy.
Anyone who is eligible to enrol to vote can become a member.
Network with your local & State Branch on facebook, attend a meeting, share news and communicate with other supporters.
Donations to the HEMP Party are tax deductible. Please send whatever you can afford today.

With the money donated
The HEMP Party will fund a campaign and nominate two Senate candidates from each state in the next Federal Election.

Find all the details on the website.
